

A close-up photograph of several reflective ribbons. The ribbons are dark in color, likely black or dark grey, and feature bright, reflective white or silver stripes. The ribbons are arranged in a way that shows their texture and the reflective properties of the stripes. The background is dark and out of focus, emphasizing the ribbons.

COMPOSITION:

Trimmings: Yarns used are mainly Polyester and Polyamide. Elastic can be produced with rubber or lycra, both naked or covered.

Reflective: Demand for each material technical specification.

PRODUCT USE:

Combine different reflective materials with trimmings for fantasy or technical use.

We always recommend making the necessary tests to guarantee the final use of the product. Upon request, we test specific characteristics of the product.

SPECIALITIES:

Continuous silicone appliance, printing, jacquard weaving, among others.

COLOURS:

Trimmings: Available standard yarn and dyeing colours catalogues.

A part from the standard colours we can reproduce any special colour on our own laboratory and dyeing means, allowing perfect match with the customer needs.

Reflective: Available standard colours catalogues.

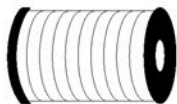

FINISHES:

Trimmings: Hard, medium or smooth, water repellent, fire retardant, sanforization, aromatic, anti fungus, among others.

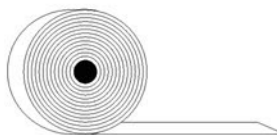

Reflective: Demand for each material technical specification.
